ENGROSSED SENATE BILL 459

2006, chief clerk's correction to Senate Amendment 1 to Senate Substitute Amendment 1.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1e.** 16.75 (1) (a) 1. of the statutes, as affected by 2005 Wisconsin Act
2 25, is amended to read:

3 16.75 (1) (a) 1. All orders awarded or contracts made by the department for all
4 materials, supplies, equipment, and contractual services to be provided to any
5 agency, except as otherwise provided in par. (c) and subs. (2), (2g), (2m), (3m), (3t),
6 (6), (7), (8), (9), (10e), and (10m) and ss. 16.73 (4) (a), 16.751, 16.754, 50.05 (7) (f),
7 153.05 (2m) (a), 287.15 (7), and 301.265, shall be awarded to the lowest responsible
8 bidder, taking into consideration life cycle cost estimates under sub. (1m), when
9 appropriate, the location of the agency, the quantities of the articles to be supplied,
10 their conformity with the specifications, and the purposes for which they are
11 required and the date of delivery.

12 **SECTION 1m.** 16.75 (10e) of the statutes is created to read:

13 16.75 (10e) (a) In this subsection, “energy consuming equipment” means any
14 equipment that is designed for heating, ventilation, air conditioning, water heating
15 or cooling, lighting, refrigeration, or any other function, and that consumes energy.

16 (b) The department, any other designated purchasing agent under s. 16.71 (1),
17 any agency making purchases under s. 16.74, and any authority may not purchase
18 energy consuming equipment unless the specifications for the equipment meet the
19 applicable standards for the equipment established under s. 16.855 (10s) (a). If there
20 is no standard under s. 16.855 (10s) (a) applicable to the type of energy consuming
21 equipment being purchased, or if the energy consuming equipment meeting that

ENGROSSED SENATE BILL 459**SECTION 1m**

1 standard is not reasonably available, the department, purchasing agent, agency, or
2 authority shall ensure that the energy consuming equipment that is purchased
3 maximizes energy efficiency to the extent technically and economically feasible. The
4 department, purchasing agent, agency, or authority shall not determine that energy
5 consuming equipment that meets the applicable standard under s. 16.855 (10s) (a)
6 either is not reasonably available on the basis of cost alone or is not cost-effective
7 unless the difference in the cost of the purchase and installation of the equipment
8 that meets the standard and the equipment that would otherwise be installed is
9 greater than the difference in the cost of operating the equipment that meets the
10 standard and the equipment that would otherwise be installed over the anticipated
11 life of the equipment.

12 **SECTION 1s.** 16.75 (12) of the statutes is created to read:

13 16.75 (12) (a) In this subsection:

14 1. “Agency” means the department of administration, the department of
15 corrections, the department of health and family services, the department of public
16 instruction, the department of veterans affairs, and the Board of Regents of the
17 University of Wisconsin System.

18 2. “Agency facility” means any state-owned or leased facility that is occupied,
19 operated, or used by an agency.

20 3. “Renewable percentage” means the percentage of total annual electric
21 energy that is derived from renewable resources.

22 4. “Renewable resource” has the meaning given in s. 196.378 (1) (h) 1. or 2. and
23 includes a resource, as defined in s. 196.378 (1) (j), that derives electricity from
24 hydroelectric power.

ENGROSSED SENATE BILL 459

1 5. “Total annual electric energy” means the total annual amount of electric
2 energy generated or purchased by the state for power, heating, or cooling purposes
3 for all agency facilities.

4 (b) The department shall establish goals for each agency that are designed to
5 accomplish the following goals:

6 1. That the renewable percentage for total annual electric energy by December
7 31, 2007, is at least 10 percent.

8 2. That the renewable percentage for total annual electric energy by December
9 31, 2011, is at least 20 percent.

10 (c) In determining whether the goals under par. (b) are accomplished, the
11 department shall do all the following:

12 1. Calculate total annual electric energy on the basis of an average of the total
13 annual electric energy during the 3 years prior to the specified dates.

14 2. For any individual agency facility, consider only electric energy that is
15 purchased from the electric provider that serves the agency facility under an
16 arrangement with a term of 10 years or more and electric energy derived from
17 renewable resources owned by the state and produced for use in the agency facility.

18 (d) Notwithstanding par. (b), an agency is not required to generate or purchase
19 electric energy derived from renewable resources if the generation or purchase is not
20 technically feasible or cost-effective.

21 (e) No later than March 1 of each year, the department shall submit a report
22 to the governor and chief clerk of each house of the legislature, for distribution to the
23 legislature under s. 13.172 (2), concerning the degree of attainment and, if
24 applicable, reasons for nonattainment by the state during the preceding year in
25 meeting the goals established by the department under par. (b).

ENGROSSED SENATE BILL 459

1 **SECTION 2.** 16.855 (10s) of the statutes is created to read:

2 16.855 (10s) (a) The department shall, by rule, prescribe and annually review
3 and revise as necessary energy efficiency standards for equipment that is installed
4 as a component of a construction project and that relates to heating, ventilation, air
5 conditioning, water heating or cooling, lighting, refrigeration, or any other function
6 that consumes energy. The standards shall meet or exceed current applicable
7 guidelines of the federal environmental protection agency relating to energy
8 efficiency of the functions specified in this paragraph, guidelines that apply to the
9 federal energy management program under 42 USC 8251 et seq., and standards
10 established by the American society of heating, refrigerating and air-conditioning
11 engineers.

12 (b) The department shall ensure that the specifications for any equipment that
13 is designed for heating, ventilation, air conditioning, water heating or cooling,
14 lighting, refrigeration, or any other function that consumes energy under any
15 construction project contract administered by the department meet applicable
16 standards established under par. (a). If there is no standard under par. (a) applicable
17 to the type of equipment being purchased or if the equipment meeting that standard
18 is not reasonably available, the department shall ensure that energy consumption
19 within a building, structure, or facility and all equipment that is purchased under
20 each contract administered by the department maximizes energy efficiency to the
21 extent technically and economically feasible. The department shall not determine
22 that equipment that meets the applicable standard under par. (a) either is not
23 reasonably available on the basis of cost alone or is not cost-effective unless the
24 difference in the cost of the purchase and installation of the equipment that meets
25 the standard and the equipment that would otherwise be installed is greater than

ENGROSSED SENATE BILL 459

1 the difference in the cost of operating the equipment that meets the standard and the
2 equipment that would otherwise be installed over the anticipated life of the
3 equipment.

4 **SECTION 3.** 16.897 of the statutes is created to read:

5 **16.897 Space and water heating systems.** In planning and designing space
6 or water heating systems for new or existing state facilities, the department shall
7 ensure that geothermal technologies are utilized to the greatest extent that is
8 cost-effective and technically feasible.

9 **SECTION 4.** 16.953 of the statutes is created to read:

10 **16.953 Energy cost reduction plans.** No later than July 1 of each
11 even-numbered year, each agency, as defined in s. 16.75 (12) (a) 1., shall submit a
12 plan to the department, the joint committee on finance, and the standing committee
13 of each house of the legislature having jurisdiction over energy, for reduction of the
14 cost of energy used by the agency. The plan shall include all system and equipment
15 upgrades or installations that are estimated to result in energy cost savings equal
16 to the cost of the upgrade or installation over the anticipated life of the system or
17 equipment. The plan shall also identify potential means of financing the upgrades
18 and installations other than reliance on appropriations of general purpose revenues.
19 The department of administration shall consider in its plan the means of financing
20 allowed under s. 16.858.

24 and administer the programs. The utilities may not execute a contract under this
25 subdivision unless the commission has approved the contract. The commission shall

ENGROSSED SENATE BILL 459

1 require each energy utility to spend the amount required under sub. (3) (b) 2. to fund
2 statewide energy efficiency and renewable resource programs.

3 2. The purpose of the programs under this paragraph shall be to help achieve
4 environmentally sound and adequate energy supplies at reasonable cost, consistent
5 with the commission's responsibilities under s. 196.025 (1) (ar) and the utilities'
6 obligations under this chapter. The programs shall include, at a minimum, all of the
7 following:

8 a. Components to address the energy needs of residential, commercial,
9 agricultural, institutional, and industrial energy users and local units of
10 government.

11 b. Components to reduce the energy costs incurred by local units of government
12 and agricultural producers, by increasing the efficiency of energy use by local units
13 of government and agricultural producers. The commission shall ensure that not
14 less than 10 percent of the moneys utilities are required to spend under subd. 1. or
15 sub. (3) (b) 2. is spent annually on programs under this subdivision except that, if the
16 commission determines that the full amount cannot be spent on cost-effective
17 programs for local units of government and agricultural producers, the commission
18 shall ensure that any surplus funds be spent on programs to serve commercial,
19 institutional, and industrial customers. A local unit of government that receives
20 assistance under this subd. 2. b. shall apply all costs savings realized from the
21 assistance to reducing the property tax levy.

22 c. Initiatives and market strategies that address the needs of individuals or
23 businesses facing the most significant barriers to creation of or participation in
24 markets for energy efficient products that the individual or business manufactures
25 or sells or energy efficiency services that the individual or business provides.

ENGROSSED SENATE BILL 459**SECTION 69**

1 d. Initiatives for research and development regarding the environmental and
2 economic impacts of energy use in this state.

3 3. The commission may not require an energy utility to administer or fund any
4 energy efficiency or renewable resource program that is in addition to the programs
5 required under subd. 1. and any ordered program of the utility. This subdivision does
6 not limit the authority of the commission to enforce an energy utility's obligations
7 under s. 196.378.

8 (b) *Utility-administered programs.* 1. An energy utility may, with commission
9 approval, administer or fund one or more energy efficiency programs that is limited
10 to, as determined by the commission, large commercial, industrial, institutional, or
11 agricultural customers in its service territory. An energy utility shall pay for a
12 program under this subdivision with a portion of the amount required under sub. (3)
13 (b) 2., as approved by the commission. The commission may not order an energy
14 utility to administer or fund a program under this subdivision.

15 2. An energy utility may, with commission approval, administer or fund an
16 energy efficiency or renewable resource program that is in addition to the programs
17 required under par. (a) or authorized under subd. 1. The commission may not order
18 an energy utility to administer or fund a program under this subdivision.

19 3. An energy utility that administers or funds a program under subd. 1. or 2.
20 or an ordered program may request, and the commission may approve, to modify or
21 discontinue, in whole or in part, the ordered program. An energy utility may request
22 the establishment, modification, or discontinuation of a program under subd. 1. or
23 2. at any time and shall request the modification or discontinuation of an ordered

ENGROSSED SENATE BILL 459

1 (c) *Large energy customer programs.* A customer of an energy utility may, with
2 commission approval, administer and fund its own energy efficiency programs if the
3 customer satisfies the definition of a large energy customer for any month in the 12
4 months preceding the date of the customer's request for approval. A customer may
5 request commission approval at any time. A customer that funds a program under
6 this paragraph may deduct the amount of the funding from the amount the energy
7 utility may collect from the customer under sub. (5) (b). If the customer deducts the
8 amount of the funding from the amount the energy utility may collect from the
9 customer under sub. (5) (b), the energy utility shall credit the amount of the funding
10 against the amount the energy utility is required to spend under sub. (3) (b) 2.

11 **(3) COMMISSION DUTIES.** (a) *In general.* The commission shall have oversight
12 of programs under sub. (2). The commission shall maximize coordination of program
13 delivery, including coordination between programs under subs. (2) (a) 1., (b) 1. and
14 2., and (c) and (7), ordered programs, low-income weatherization programs under s.
15 16.957, renewable resource programs under s. 196.378, and other energy efficiency
16 or renewable resource programs. The commission shall cooperate with the
17 department of natural resources to ensure coordination of energy efficiency and
18 renewable resource programs with air quality programs and to maximize and
19 document the air quality improvement benefits that can be realized from energy
20 efficiency and renewable resource programs.

21 (b) *Programs and funding.* 1. At least every 4 years, after notice and
22 opportunity to be heard, the commission shall, by order, evaluate the energy
23 efficiency and renewable resource programs under sub. (2) (a) 1., (b) 1. and 2., and
24 (c) and ordered programs and set or revise goals, priorities, and measurable targets
25 for the programs. The commission shall give priority to programs that moderate the

ENGROSSED SENATE BILL 459**SECTION 69**

1 growth in electric and natural gas demand and usage, facilitate markets and assist
2 market providers to achieve higher levels of energy efficiency, promote energy
3 reliability and adequacy, avoid adverse environmental impacts from the use of
4 energy, and promote rural economic development.

5 2. The commission shall require each energy utility to spend 1.2 percent of its
6 annual operating revenues to fund the utility's programs under sub. (2) (b) 1., the
7 utility's ordered programs, and the utility's share of the statewide energy efficiency
8 and renewable resource programs under sub. (2) (a) 1. Subject to approval under
9 subd. 3., the commission may require each energy utility to spend a larger percentage
10 of its annual operating revenues to fund these programs. The commission may make
11 such a requirement based on the commission's consideration of all of the following:

12 a. Studies of potential energy–efficiency improvements that could be made in
13 this state, including at least one study completed within the preceding 2 years that
14 provides a prospective 5–year and 10–year estimate of such potential that is
15 cost–effective.

16 b. The potential short–term and long–term impacts on electric and natural gas
17 rates and alternative means to mitigate such impacts.

18 c. The impact on the continuation and effectiveness of existing energy efficiency
19 and renewable resource programs, and the ability of such programs to capture
20 time–limited and cost–effective energy–efficiency opportunities.

21 d. The impact on the reliability and adequacy of systems for the generation and
22 transmission of electricity and the transmission of natural gas.

23 e. Societal impacts.

24 f. The potential for displacing or delaying construction of electric generating
25 plants and transmission lines.

ENGROSSED SENATE BILL 459

1 g. Economic impacts that are likely to accrue from reducing state and private
2 expenditures on coal, natural gas, fuel oil, and other fossil fuel imports.

3 h. Any other relevant factors.

4 3. The commission shall submit to the joint committee on finance any proposal
5 to require each energy utility to spend a larger percentage of its annual operating
6 revenues than the percentage specified in subd. 2. (intro.) to fund the programs
7 specified in subd. 2. (intro.). If the cochairpersons of the committee do not notify the
8 commission within 10 working days after the commission submits such a proposal
9 that the committee has scheduled a meeting to review the proposal, the commission
10 may require each energy utility to spend the percentage specified in the proposal.
11 If, within 10 working days after the commission submits a proposal, the
12 cochairpersons of the committee notify the commission that the committee has
13 scheduled a meeting to review the proposal, but, within 90 days of providing the
14 notice, the committee does not object to the proposal, the commission may require
15 each energy utility to spend the percentage specified in the proposal. If, within 90
16 days after providing the notice, the committee objects to the proposal, the
17 commission may not require each energy utility to spend the percentage specified in
18 the proposal.

19 (c) *Reviews and approvals.* The commission shall do all of the following:

20 1. Review and approve contracts under sub. (2) (a) 1. between the energy
21 utilities and program administrators.

22 2. Review requests under sub. (2) (b). The commission may condition its
23 approval of a request under sub. (2) (b) as necessary to protect the public interest.

24 The commission shall approve a request under sub. (2) (b) 1. or 2. if the commission

ENGROSSED SENATE BILL 459**SECTION 69**

1 determines that a proposed energy efficiency or renewable resource program is in the
2 public interest and satisfies all of the following:

3 a. The program has specific savings targets and performance goals approved
4 by the commission.

5 b. The program is subject to independent evaluation by the commission.

6 (d) *Audits.* Annually, the commission shall contract with one or more
7 independent auditors to prepare a financial and performance audit of the programs
8 specified in par. (b) 1. The purpose of the performance audit shall be to evaluate the
9 programs and measure the performance of the programs against the goals and
10 targets set by the commission under par. (b) 1. The person or persons with whom the
11 energy utilities contract for program administration under sub. (2) (a) 1. shall pay
12 the costs of the audits from the amounts paid under the contracts under sub. (2) (a)
13 1.

14 (e) *Reports.* Annually, the commission shall prepare and post on the
15 commission's Internet site a report and submit a summary of not more than 2 pages
16 to the legislature under s. 13.172 (2). The reports shall describe each of the following:

17 1. The expenses of the commission, utilities, and program administrators
18 contracted under sub. (2) (a) 1. in administering or participating in the programs
19 under sub. (2) (a) 1.

20 2. The effectiveness of the programs specified in par. (b) 1. and sub. (7) in
21 reducing demand for electricity and increasing the use of renewable resources owned
22 by customers or members.

23 3. The results of audits under par. (d).

24 4. Any other information required by the commission.

ENGROSSED SENATE BILL 459

1 (f) *Rules.* The commission shall promulgate rules to establish all of the
2 following:

3 1. Procedures for energy utilities to collectively contract with program
4 administrators for administration of statewide programs under sub. (2) (a) 1. and to
5 receive contributions from municipal utilities and retail electric cooperatives under
6 sub. (7) (b) 2.

7 2. Procedures and criteria for commission review and approval of contracts for
8 administration of statewide programs under sub. (2) (a) 1., including criteria for the
9 selection of program administrators under sub. (2) (a) 1.

10 3. Procedures and criteria for commission review and approval of
11 utility-administered programs under sub. (2) (b) 1. and 2., customer programs under
12 sub. (2) (c), and requests under sub. (2) (b) 3.

13 4. Minimum requirements for energy efficiency and renewable resource
14 programs under sub. (2) (a) 1. and customer energy efficiency programs under sub.
15 (2) (c).

16 **(4) DISCRIMINATION PROHIBITED; COMPETITION.** (a) In implementing programs
17 under sub. (2) (a) 1., including the awarding of grants or contracts, a person who
18 contracts with the utilities under sub. (2) (a) 1., or a person who subcontracts with
19 such a person:

20 1. May not discriminate against an energy utility or its affiliate or a wholesale
21 supplier or its affiliate solely on the basis of its status as an energy utility or its
22 affiliate or wholesale supplier or its affiliate.

23 2. Shall provide services to utility customers on a nondiscriminatory basis and
24 subject to a customer's choice.

ENGROSSED SENATE BILL 459**SECTION 69**

1 (b) An energy utility that provides financing under an energy efficiency
2 program under sub. (2) (b) 1. or 2. for installation, by a customer, of energy efficiency
3 or renewable resource processes, equipment, or appliances, or an affiliate of such a
4 utility, may not sell to or install for the customer those processes, equipment,
5 appliances, or related materials. The customer shall acquire the installation of the
6 processes, equipment, appliances, or related materials from an independent
7 contractor of the customer's choice.

8 (5) COST RECOVERY. (a) *Rate-making orders.* The commission shall ensure in
9 rate-making orders that an energy utility recovers from its ratepayers the amounts
10 the energy utility spends for programs under sub. (2) (a) 1.

11 (b) *Large energy customers.* 1. Except as provided in sub. (2) (c) and par. (bm)
12 2., if the commission has determined that a customer of an energy utility is a large
13 energy customer under 2005 Wisconsin Act (this act), section 102 (8) (b), then,
14 each month, the energy utility shall collect from the customer, for recovery of
15 amounts under par. (a), the amount determined by the commission under 2005
16 Wisconsin Act (this act), section 102 (8) (c).

17 2. A customer of an energy utility that the commission has not determined is
18 a large energy customer under 2005 Wisconsin Act (this act), section 102 (8) (b),
19 may petition the commission for a determination that the customer is a large energy
20 customer. The commission shall determine that a petitioner is a large energy
21 customer if the petitioner satisfies the definition of large energy customer for any
22 month in the 12 months preceding the date of the petition. If the commission makes
23 such a determination, the commission shall also determine the amount that the
24 energy utility may collect from the customer each month for recovery of the amounts
25 under par. (a). The commission shall determine an amount that ensures that the

ENGROSSED SENATE BILL 459

1 amount collected from the customer is similar to the amounts collected from other
2 customers that have a similar level of energy costs as the customer. Except as
3 provided in sub. (2) (c) and par. (bm) 2., each month, the energy utility shall collect
4 from the customer, for recovery of amounts under par. (a), the amount determined
5 by the commission under this subdivision.

6 (bm) *Allocation proposal.* 1. The commission shall commence a proceeding for
7 for creating a proposal for allocating within different classes of customers an
8 equitable distribution of the recovery of the amounts under par. (a) by all energy
9 utilities. The purpose of the allocation is to ensure that customers of an energy utility
10 within a particular class are treated equitably with respect to customers of other
11 energy utilities within the same class. No later than December 31, 2008, the
12 commission shall submit the proposal to the governor and chief clerk of each house
13 of the legislature for distribution to the appropriate standing committees of the
14 legislature under s. 13.172 (3).

15 2. If, by July 1, 2009, legislation based on the proposal under subd. 1. has not
16 been enacted, the commission shall, beginning on July 1, 2009, annually increase the
17 amount that an energy utility may recover from a large energy customer each month
18 under par. (b) only by a percentage that is the lesser of the following:

19 a. The percentage increase in the energy utility's operating revenues during the
20 preceding year.

21 b. The percentage increase in the consumer price index for all urban
22 consumers, U.S. city average, as determined by the U.S. department of labor, during
23 the preceding year.

ENGROSSED SENATE BILL 459**SECTION 69**

1 (c) *Accounting*. The commission may prescribe the accounting treatment of
2 energy utility expenditures required under this section, including the use of any
3 escrow accounting.

4 (d) *Equitable contributions*. Subject to pars. (b) and (bm) 2., the commission
5 shall ensure that the cost of energy efficiency and renewable resource programs is
6 equitably divided among customer classes so that similarly situated ratepayers
7 contribute equivalent amounts for the programs.

8 **(5m) BENEFIT AND GRANT OPPORTUNITIES.** (a) The commission shall ensure that,
9 on an annual basis, each customer class of an energy utility has the opportunity to
10 receive grants and benefits under energy efficiency programs in an amount equal to
11 the amount that is recovered from the customer class under sub. (5) (a). Biennially,
12 the commission shall submit a report to the governor, and the chief clerk of each
13 house of the legislature for distribution to the legislature under s. 13.172 (2), that
14 summarizes the total amount recovered from each customer class and the total
15 amount of grants made to, and benefits received by, each customer class.

16 (b) The commission shall ensure that customers throughout the state have an
17 equivalent opportunity to receive the benefits of the programs under sub. (2) (a) 1.
18 and (b) 1. The commission shall ensure that statewide programs are designed to
19 ensure that retail customers in areas not served by programs under sub. (2) (b) 1.
20 receive equivalent opportunities as those in areas served by programs under sub. (2)
21 (b) 1.

22 **(6) ANNUAL STATEMENTS.** Annually, the commission shall prepare a statement
23 that describes the programs under sub. (2) (a) 1., (b) 1. and 2., and (c), and ordered
24 programs, administered or funded by the energy utility and presents cost and benefit

ENGROSSED SENATE BILL 459

1 information for those programs. An energy utility shall provide each of its customers
2 with a copy of the statement.

3 (7) MUNICIPAL UTILITIES AND RETAIL ELECTRIC COOPERATIVES. (a) *Requirement to*
4 *charge fees.* 1. Each retail electric cooperative and municipal utility shall charge a
5 monthly fee to each customer or member in an amount that is sufficient for the retail
6 electric cooperative or municipal utility to collect an annual average of \$8 per meter.
7 A retail electric cooperative or municipal utility may determine the amount that a
8 particular class of customers or members is required to pay under this subdivision
9 and may charge different fees to different classes of customers or members.

10 2. Notwithstanding subd. 1., in any month, the monthly fee under subd. 1. may
11 not exceed 1.5 percent of the total of every other charge for which the member or
12 customer is billed for that month or \$375 per month, whichever is less.

13 (b) *Commitment to community programs.* 1. Except as provided in subd. 2.,
14 each retail electric cooperative and municipal utility shall spend the fees that it
15 charges under par. (a) on commitment to community programs. The purpose of the
16 programs under this paragraph shall be to help achieve environmentally sound and
17 adequate energy supplies at reasonable cost.

18 2. No later than October 1, 2007, and no later than every 3rd year after that
19 date, each municipal utility or retail electric cooperative shall notify the commission
20 whether it has elected to contribute the fees that it charges under par. (a) to statewide
21 programs established under sub. (2) (a) 1. in each year of the 3-year period for which
22 it has made the election. If a municipal utility or retail electric cooperative elects to
23 contribute to the statewide programs established under sub. (2) (a) 1., the utility or
24 cooperative shall contribute the fees that it collects under par. (a) to the payment of
25 contracts under sub. (2) (a) 1. for administration of the statewide programs, as

ENGROSSED SENATE BILL 459**SECTION 69**

1 specified in the rules under sub. (3) (f) 1., in each year of the 3-year period for which
2 the utility or cooperative has made the election.

3 (c) *Wholesale supplier credit.* If a wholesale supplier has established an energy
4 efficiency or load management program, a municipal utility or retail electric
5 cooperative that is a customer or member of the wholesale supplier may include an
6 amount equal to the product of the municipal utility's or retail electric cooperative's
7 wholesale supply percentage and the amount that the wholesale supplier has spent
8 on energy efficiency or load management programs in a year in calculating the
9 amount that the municipal utility or retail electric cooperative has spent on
10 commitment to community programs under par. (b).

11 (d) *Joint programs.* Municipal utilities or retail electric cooperatives may
12 establish joint commitment to community programs, except that each municipal
13 utility or retail electric cooperative that participates in a joint program shall comply
14 with the spending requirements under par. (b).

15 (e) *Reports.* 1. Annually, each municipal utility and retail electric cooperative
16 that spends the fee that it charges under par. (a) for commitment to community
17 programs under par. (b) shall provide for an independent audit of its programs and
18 submit a report to the commission that describes all of the following:

19 a. An accounting of fees charged to customers or members under par. (a) in the
20 year and expenditures on commitment to community programs under par. (b),
21 including any amounts included in the municipal utility's or retail electric
22 cooperative's calculations under par. (c).

23 b. A description of commitment to community programs established by the
24 municipal utility or retail electric cooperative in the year.

ENGROSSED SENATE BILL 459

1 c. The effectiveness of the commitment to community programs in reducing
2 demand for electricity by customers or members.

3 d. The results of audits under this subdivision.

4 2. The commission shall require that municipal utilities and retail electric
5 cooperatives file reports under subd. 1. electronically, in a format that allows for
6 tabulation, comparison, and other analysis of the reports.

7 3. The commission shall maintain reports filed under subd. 1. for at least 6
8 years.

9 **(8) COMPLIANCE.** An energy utility that spends the full amount required under
10 sub. (3) (b) 2. in any year is considered to have satisfied its requirements under this
11 section for that year.

12 **SECTION 70.** 196.378 (1) (a) of the statutes is renumbered 196.378 (1) (ar)
13 amended to read:

14 196.378 (1) (ar) “Biomass” means a resource that derives energy from wood or
15 plant material or residue, biological waste, crops grown for use as a resource or
16 landfill gases. “Biomass” does not include garbage, as defined in s. 289.01 (9), or
17 nonvegetation-based industrial, commercial or household waste, except that
18 “biomass” includes refuse-derived fuel used for a renewable facility that was in

6 deadline will result in unreasonable increases in rates of the applicant's ratepayers
7 or members, including increases that are due to the discontinuation of federal
8 renewable energy tax credits or other federal policies intended to reduce the
9 acquisition costs of renewable energy.

10 3. Notwithstanding reasonable efforts to obtain required approvals, the
